

Hassam Asghar

DATA ANALYST · MMA, SMITH SCHOOL OF BUSINESS (QUEEN'S)

Kitchener, Ontario · Canadian Permanent Resident · (226) 581-9664 · hassam.asghar.work@gmail.com

hassamasghar.com · linkedin.com/in/hassam-asghar-69628b219

SUMMARY

Analyst with 14 months owning billing and revenue reporting and nearly 3 years supporting US and Canadian retail clients on POS and back-office data, now completing a Master of Management Analytics at Smith School of Business, Queen's University (Dec 2026). Owned the SQL datasets and Power BI reporting behind a billing system processing close to \$1M a month, and cut financial reconciliation time 40%.

SKILLS

Data & BI: SQL · Power BI (DAX, Power Query, data modeling) · Tableau · Advanced Excel · Python · R

Analytics: regression · classification · forecasting · linear and mixed-integer optimization · simulation

Automation & Delivery: n8n · Google Apps Script · LLM APIs · requirements gathering · KPI reporting · UAT and QA

EXPERIENCE

Co-Founder & Operator

Hopefield Home (home-textiles brand, Amazon FBA and Shopify) · Nov 2025 – Present

- Built a linear-programming model (28 variables, Excel Solver and Python) that cleared all stranded inventory into sets.
- Reconciled the first import (182 cartons) against invoice and bill of lading, catching a 4-carton gap before customs.

Billing and Compliance Analyst

Cowlar Design Studio (YC-backed product studio, ~175 staff) · May 2024 – Jun 2025

- Owned the SQL datasets behind a live fractional-billing system processing close to \$1M a month.
- Built Power BI dashboards for leadership and North American clients, cutting financial reconciliation time 40%.
- Designed 15+ SQL datasets that became the single source of truth for billing, profitability and revenue reporting.
- Automated billing, HR and accounts workflows with n8n, Python and Google Apps Script, lifting billing accuracy about 25%.

Customer Support Lead

Modisoft Inc. (US retail POS and back-office software) · Aug 2023 – Apr 2024

- Validated POS and financial data across 200+ retail accounts, reconciling transactions against tax and revenue reports.
- Found a recurring tobacco scan-data discrepancy by auditing and drove the fix with engineering, protecting rebate revenue.

Senior Support Specialist (Team Lead)

Modisoft Inc. (led 7 specialists, introduced KPI tracking) · Jan 2023 – Aug 2023

Technical Support Specialist

Broadpeak GmbH (back-office support, 1,000+ Edible Arrangements stores, US and Canada) · Feb 2022 – Jan 2023

EDUCATION

Master of Management Analytics (MMA)

Smith School of Business, Queen's University, Toronto, ON · Jan 2026 – Dec 2026 (expected)

- **GPA:** A (4.0/4.3). **Coursework:** Predictive Analytics (R), Machine Learning and AI, Data Acquisition, Management and Visualization (SQL, Tableau), Analytics in Business Decisions (optimization, simulation)
- **Auto insurance claim model (MMA 867, 5-person team):** ran the EDA on 10,000 policyholder records and built the tool that scores intake answers into a claim probability and risk tier; our logistic regression reached 0.887 ROC-AUC, ahead of 3 tree models.
- **Hospital meal planning optimizer (MMA 861):** built a mixed-integer program in Python (SciPy/HiGHS) for 5 clinical diet profiles and 11 constraint families, and showed menu variety adds 37% to food cost (\$6.81 to \$9.34 per patient per 3-day block).

Bachelor of Business Administration

National Defense University, Islamabad, Pakistan · Jan 2019 – Jan 2024

PROJECTS

- **Kaggle House Prices:** top 20% of the leaderboard with Ridge, Lasso and gradient boosting (5-fold CV).
